Legitimacy and Stability in Latin America

A Study of Chilean Political Culture
by Francisco José Moreno

An original evaluation of Chilean politics challenging the prevailing view that Chile's stability is the result of pluralistic democratization, this work asserts that the Chilean political system has been legitimized on the basis of its appeal to traditional monistic tendencies and veneration of charismatic leadership. \$6.95

Non-White Immigration and the "White Australia" Policy

by Herbert I. London

Reflecting an increasing concern with her image as an Asian state, Australia in 1966 proposed "dramatic changes" to liberalize her non-Caucasian immigration policy. This thoroughly researched book is the first historically and sociologically comprehensive overview of changing attitudes and resultant policies. \$6.95

The Atlantic Legacy

by Robert O. Mead

The myth of the American frontier is so appealing to the popular imagination that, even now, too many historians and laymen let themselves be misled by it. This discursive and highly readable work gives a fresh appraisal of the frontier mystique, tracing the transatlantic influence on the American experience. \$8.95

Social System and Time and Space

An Introduction to the Theory of Recurrent Behavior

by Jiri Kolaja

Price \$5.95

This treatise casts its net over a large amount of territory and we believe that this the first systematic exploration of the topic. It may prove to be a solid introduction to the study of recurrent behavior.
